

# J. H. MORSE, IS NOW RECEIVING NEW GOODS.

The Crittenden Press

ISSUED WEEKLY.

R. C. WALKER, Publisher.

Ex-President Hayes is dangerously ill.

What has become of McKinley and Reed?

Mr. Blaine still lives, but hope for his recovery is faded.

In life Ben Butler was called every thing but a fool; many of his obituaries read about the same way.

Tennessee's new Governor was sworn in Monday. He is very ill, and took the oath of office while in bed.

Missouri does not propose to lease her convicts unless seventy-five cents per day for each one's labor can be realized.

Prohibition does not always prohibit; neither will good laws make good roads; public sentiment is the most powerful of all laws.

The disease that is bearing Mr. Blaine slowly but surely to the grave is not said to be a mystery so far as *Speculations* *concerning*.

*Living*, *Is an old saying*, *but it appears* that the 10-centers are now confronted with the "silver living."

New York Democrats are promising for another fight. A New York Democrat is never happy except when he is fighting another New York Democrat.

The Populists captured Kansas in the election, but the Republicans appear to be in charge of the West where the thirteenth tithe of public life is dispensed.

The Murray Ledger keeps on improving and growing in usefulness. It is now a six column eight page paper, hand-somely printed, well edited and extensively patronized.

Jerry Simpson, the socks Statesman, has left the scene of the Senatorial contest in Kansas, and returned to his duties at Washington. He has relinquished the hope of being the United States Senator from his State. The middle befooled Jerry.

The twenty-fifth annual session of the National Woman's Suffrage Association is being held in Washington this week. A quarter of a century's work has been done but little towards giving women the attributes of men, but the Association does not appear to be discouraged.

A whisky trust is gobbling up the big distillers, and will make an immense lot of liquor this year, in anticipation of an increase of the internal revenue tax on this article. The position to increase the tax has grown in public favor since it was first mentioned, and will probably be one of the first acts of the next Congress.

The Democrats and Third party folks in Kansas have been playing partners for a year or two; but since the middle in the Legislature, each has served the other with a dissolution notice, and each will set up business for himself. In short the old allies are making faces at each other, while the few straight Democrats in that State are enjoying the fun.

The Franklin fight at Frankfort is warming up. Congressman Stone and McCleary arrived at the scene of battle Tuesday night, and all the candidates are on the ground marshalling their forces. There is no inferior timber in the whole lot. Stone, McCleary, Brown, and Breckinridge have had large experience in national legislature matters; Lindsay is a Saul among the lawyeers of the State, and Clay is a clever politician. The Press regards each of them as good timber, but sincerely hopes that our own popular, worthy, able, pure, Congressman will win the honorable prize. He will go into the fight with every Democrat member from the hill districts for him.

A Frankfort correspondent writing under date of the 14th, estimated the strength of the Leontine aspirants as follows: Brown, 21; Stone, 18; Clay, 17; Lindsay, 14; McCleary, 14; Breckinridge, 10. The same writer says:

"There are, however, those prominent enough to make their opinion of weight, who assert that Messrs. Breckinridge, and Stone and the others who have been mentioned as possible candidates will not enter at all, and that the actual race will narrow down to Brown, Lindsay, Clay and McCleary, and upon this basis the lobby lists of caucus supporters would need a general revision." Under the latter contingency the following estimate of the first ballot is made: Brown, 41; Clay, 24; Lindsay, 19; McCleary, 14.

Hill and Tammany Hall have partied company, so say the dispatches. Croker, the leader of Tammany charges Hill with betraying Cleveland in the election, and points to the comparatively small vote for the president-elect in the New York counties where the Hill influence was strongest. Then it is said that Hill went down to Albany about the time Tammany was electing a United States Senator, and Croker said he ought to be at Washington attending to his own business.

Mr. Caine, the delegate from the territory will push a bill for the admission of Utah into the sisterhood of States.

A joint resolution for a committee

United States Senators by popular vote passed the House without a division.

The extent of the work of the present Congress will be the passage of the appropriation bills. The important matters of legislation will be left for the next session to deal with.

Mr. Dearmond (Dem.), of Missouri, introduced in the House to-day a bill to suspend, during the first year of each Presidential term, all civil service laws, rules and regulations in so far as they do, or might, restrict or interfere with the free exercise by the President or heads of departments of the power to remove or appoint officers or employees of the Government. A preamble to the bill says that an Administration can fully and satisfactorily carry its policies into execution if a large portion of such officers are hostile to such policies.

It Passed.

For the second time the bill appropriating \$100,000 for Kentucky's display at the World's Fair has passed the Legislature. It passed the House last week by a majority of one, and on Monday day it passed the Senate by a vote of 21 to 9. There can be no mistake this time and as soon as the governor signs it, it will be law.

## FREDONIA.

The young people had a nice party at Frank Hughes last Friday night, three or four of the surrounding neighborhoods were represented, all seemed to enjoy the evenings.

At 1:30 a. m. Sunday a good tenant house belonging to Mrs. M. J. Wyatt, was burned down, it was occupied by Frank Morse family, col. It is supposed to have caught from a defective chimney, and was so well under way burning when the family awoke, they had but little chance to save the contents, quite a crowd were at the scene but too late to be of any assistance.

Henry Glenn is having a considerable addition made to the house on his farm in the New Bethel neighborhood. It will be occupied by Fred Black and family.

A considerable interest is being manifested by quite a number of the ladies in this community in the study of the Bible, in a Sunday school capacity, thereby setting an example worthy of imitation to others of the town and vicinity all of whom they cordially invite to join them in their efforts to learn more of God, and be a blessing to their fellow creatures.

Willie Ensorner is attending school in Ohio. A man agent for most of the leading papers and magazines published and would be glad to supply any one, with any book, paper, or magazine at publishers prices. Also stationery of any kind.

## Devilment in Henderson.

The grand jury returned into court thirty-four indictments, one for failing to furnish liquor without license, two for burglary, nine for selling liquor in a prohibition district, three for selling liquor to a minor, one for hunting on Sunday, one for camp shooting, four for injuring concealed weapons, one for injuring property, one for robbery, and three for malicious shooting.

DEAD.

Fremont, O., Jan. 17.—Ex-President Rutherford B. Hayes died at 11 o'clock to-night. Early in the evening an inquiry elicited the response that the General had passed a fairly well day, and was resting nicely this evening. The change from better to worse was rapid and 11 o'clock the distinguished ex-President passed away.

The first intelligence of this was received when Webb C. Hayes came down and quickly announced that his father had just died.

## Congressional Brevities.

Congressman Outhwaite wants frequent redemptions of National Bond and Treasury notes. He fears the spread of disease through the handling of old and much used paper money. A bill will be favorably reported abolishing the various pension agencies, and providing for the payment of pensions direct from Washington. The object is to decrease the expenses of handling the pension funds.

An effort will be made to establish by Congressional enactment a permanent census bureau.

Mr. Caine, the delegate from the territory will push a bill for the admission of Utah into the sisterhood of States.

MYSTERIOUSLY DISAPPEARED.  
MISS SALLIE J. MOORE MISSING  
FROM HER FRIENDS IN NEW  
YORK.

Three months ago Miss Sallie J. Moore, daughter of the late Rev. W. T. Moore, left here and went to New York to live with her sister, Mrs. Willie Crowell. Since the death of her father Miss Sallie has resided most of the time with her sister, Mrs. Geo. Boston of this place. Three months ago at the solicitation of her sister in New York, she went to that place to live. A special to the Courier Journal from New York under date of the 15th, contains the following story of Miss Moore's sudden and mysterious disappearance on Monday last:

"Miss Moore left her sister shortly after 10 o'clock on Monday forenoon to go to Stern's dry goods store, on Twenty-third street, to exchange some goods. After that she intended to go to see a dressmaker named Macneil at 34 East Twenty-third street. Miss Moore did not return, and her friends do not know what has become of her. They have traced her to Stern's, but can find no clue to her whereabouts after that. She was pretty familiar with the West Side, but had never traveled on the East Side at all. Mr. and Mrs. Crowell thinks she has got lost in the city."

When the news reached here Wednesday, Miss Moore's many friends of greatly surprised and grieved. They are unable to account for her disappearance. Her sister Mrs. Boston thinks that it is probable that she has found employment in a dress making establishment, and keeping her whereabouts a secret because her New York relatives were decidedly opposed to taking that course; and offered her a home where she need not work, but Mrs. Boston says her sister has an independent disposition, and dislikes the idea of being dependent upon others.

The missing girl is fairly educated, very pleasant and very beautiful. While here she endeavored to earn a living by teaching, but was not successful. Her father was well known in this section, and the family is one of the best known and most highly respected in Western Kentucky.

Moses Lamb Dead.

## OUT NEW CIRCUIT JUDGE.

CLIFTON J. PRATT.

We are indebted to the Madisonville Hustler for the excellent profile of Judge Pratt, which is on this page.

Of him the Courier-Journal says: "Clifton J. Pratt, of Madisonville, the newly elected Circuit Judge of the Fourth judicial district, was born in Woodford county, Illinois, but moved at an early date to Kentucky, where he has since resided. He chose the protection of the law and has practiced at Madisonville for twenty years. In 1879 he was elected to the Senate from the counties of Hopkins and Christian carrying both counties, and in this capacity served with marked ability. In 1886 he made the race for Circuit Judge against Judge Gray, one of the ablest and most distinguished

jurists in the State, but was defeated by a small majority. At the late election Judge Pratt was successful, carrying three of the four counties, comprising the district, defeating his opponent, Hon. T. J. Nunn, of Marion, a gentleman of great merit.

Judge Pratt is a close student, a deep thinker, of liberal mind and broad views, a forcible speaker, an able lawyer and a gentleman of culture and refinement. He has always been a Republican and has always won the respect and good will of all parties.

The Fourth judicial district will find in him an able and impartial Judge, attentive to business and courageous in the discharge of his duty."

## A QUEER RAILROAD.

It is run upon Texas Principles,  
But Gets There—Some Times.

[St. Louis Globe-Democrat.]

"There is some queer railroading down in Texas," said W. A. Shaw, as he stood in the Laclede annex and gave his glass a peculiar circular motion calculated to make the sugar and peppermint sociable. "There is a road down in the southern part of the State fifty-three miles long whose cannonball covers the distance in just four hours if it has an exceptionally good run of luck. Trains run each way three times a week, if one doesn't get lost and so blockade traffic until a hand car can be sent out for it.

"There are no telegraph or telephone stations on the road, and when a train leaves the where the general offices are located the conductor is master of the situation until he gets back again. Sometimes the pneumatic tire comes off the sulky of the man employed to ride ahead and drive the cattle off the track, and the train is a week making the round trip. I rode over the road once, then waked back because I was in a hurry.

"On the trip out we picked up a drunken farmer who had laid down on the track. The conductor chanced to know him, and held the train while the trainmen and baggage master carried him to his home a mile away. In about an hour the brakeman returned with a invitation from the farmer's wife for crew and passengers to come over to supper. We went, and after the repast an old cotton field African, with a cracked fiddle, was introduced and we had a dance. The conductor then wanted to proceed, but the engineer, who was sitting up to the hilarious farmer's buxom daughter, said the hogs had rooted out several croissants down by the water-tank, and he was apprehensive of a repetition of the Ashtabula disaster if we attempted to run over that part of the road at night. So we stayed and danced until daylight.

"We got off after breakfast next morning, and the farmer's daughter was a passenger.

She wore a sun-bonnet and carried a large tin pan. Three miles out we stopped, and the crew helped her to pick wild strawberries enough to fill her pail. Then we backed up and the engineer carried the bucket of berries over to the house for her. When he got back he discovered that he was out of coal and couldn't budge. The farmer kindly donated enough fence rails to pull us out of the difficulty, and we got through, by great good luck, in just twenty-eight hours. Oh! some of those roads down there are lightning."

### Eating Quail on a Wager.

Mr. E. T. Franks, the popular young revenue man, has just undertaken to eat 30 quails in 30 days on a wager, which was laid with Dr. Morrison, the dentist. Mr. Franks started to carry out his part of the wager Sunday, and will eat his fourth quail this evening at supper. Mr. Franks says he feels like he would go the doctor about two better and that he could eat 100 quails in 100 days, but thinks he will have enough quail after he has won his present wager. He eats the quail for supper each evening, and if he is successful Dr. Morrison is to pay all expenses and set up a supper. —Owensboro Inquirer.

### It Tastes Good

One reason why Scott's Emulsion of Pure Norwegian Cod Liver Oil and Hypophosphites of Lime and Soda has had such a large sale is because it is "Almost as palatable as milk;" but the best reason is that its curative properties are unequalled. It cures the cough, supplies the waste of tissues, produces flesh and builds up the entire system.

Scott's Emulsion  
Cures Coughs, Colds, Consumption, Scrofula, and all Anemic and Wasting Diseases. Prevents wasting in children. Almost as palatable as milk. Get only the genuine. Prepared by Scott & Bowes, Chemists, New York. Sold by all Druggists.
